

EINN2013 parallel session

“Photon-photon physics and its implications for the muon’s (g-2)”

Tuesday, October 29, 16:00-17:30

Overview meson transition form factors: experiment	S. Eidelman	40' + 5'
Light-by-light scattering and its impact on (g-2)	V. Pauk	40' + 5'

Tuesday, October 29, 18:00-19:15

Meson transition form factors at BES-III	Ch. Redmer	20' + 5'
$\gamma\gamma \rightarrow \pi\pi$ at BES-III	Y. Guo	20' + 5'
Results from KLOE	P. Gauzzi	20' + 5'

Wednesday, October 30, 16:00-17:50

η - η' mixing: overview	R. Escribano	30' + 5'
η and η' time-like transition FF results from MAMI	M. Unverzagt	20' + 5'
η and η' decay results from WASA	A. Kupsc	20' + 5'
Meson transition FFs using Pade approximants	P. Sánchez-Puertas	20' + 5'

Thursday, October 31, 16:00-17:30

(g-2) and beyond Standard Model physics	D. Stoeckinger	40' + 5'
Hadronic LbL contribution to (g-2): Quo vadis ?	P. Masjuan	15'
Discussion session		30'
