26 – 27 August 2024 • Nicosia, Cyprus

## **European Conference on Educational Research**

*“Education in an Age of Uncertainty:  
memory and hope for the future”*

27 – 30 August 2024 • Nicosia, Cyprus

## Welcome

Welcome to Cyprus and the European Conference on Educational Research – ECER 2024, and to the 30<sup>th</sup> anniversary of the European Educational Research Association, EERA. Cyprus is centrally situated in the eastern Mediterranean Sea. It has had and still has a strategic position as one of the eastern most positions in Europe. A Europe which once again is experiencing war. Finding a way out of conflict and war is complex and challenging. This, in my opinion, calls on educational researchers of all kinds. This year’s ECER theme “Education in an age of uncertainty: Memory and hope for the future” reminds and challenges us in this respect.

The beautiful University of Cyprus, New Campus, is hosting this year’s conference. We will celebrate 30 years of development of educational research through EERA and ECER. We again meet face-to-face to present, discuss and network within and across disciplinary and methodological borders. I urge you to use this as an opportunity not only to develop your own research, but also to think of ways in which societal needs can be met through good educational research. I believe we as educational researchers have something to offer in terms of thinking and suggesting other ways of cooperating and cohabiting. I hope both emerging and senior researchers take the time during the conference to reflect on ways in which educational research can contribute to current societal challenges and provide hope for the future. Education in my thinking represents a hope, a hope that upcoming generations are given the opportunity to re-form and re-start societal processes for the good of all humans and the living earth.

Looking forward to seeing you at ECER 2024.

**Marit Honerød Hoveid**

## About Nicosia

Nicosia is the capital of Cyprus; a status it has enjoyed for 1000 years since the 10<sup>th</sup> century, though its beginnings date back 5000 years to the Bronze Age. It lies roughly in the centre of the island in the Mesaoria Plain, flanked by the beautiful northern range of Kyrenia Mountains with its distinctive 'Pentadaktylos' – the five finger mountain. There are various suggestions as to the origin of the name Nicosia – or 'Lefkosia' In Greek – but the most likely one is linked to the popular tree, the tall 'Lefki' which once adorned the city.

Based in Nicosia are the Government head offices, Diplomatic headquarters and the cultural centre of Cyprus. The capital presents two distinct faces: the old, original part of the city, surrounded by sturdy Venetian walls over 400 years old, and a busy modern metropolis which has a population of 171.000 together with the suburbs.

Within the large area, encircled by the strong bastion walls that served to protect the town for centuries, are many places of great historic interest.

The central Eleftheria Square links old Nicosia with the elegant modern city that has flourished outside the walls, where hotels, offices restaurants and gardens blend happily with the fine old houses and colonial buildings of this cosmopolitan city.

Nicosia is a sophisticated and cosmopolitan city, rich in history and culture that combines its historic past with the amenities of a modern city. Nicosia has established itself as the island's financial capital and its main international business centre. The 'new' Nicosia developed outside the walls became a contemporary, business and cultural center. Just a few miles away are enchanting places of interest such as Byzantine churches and monasteries, archaeological sites and charming villages. The uniqueness of such a combination makes the capital of Cyprus a place worth knowing and certainly a place worth visiting!
