

The 37th IEEE International Symposium on Software Reliability Engineering

October 20 – 23, 2026
Limassol, Cyprus

Call for Papers

Organizer:  University
of Cyprus

The International Symposium on Software Reliability Engineering (ISSRE) has grown into a leading global forum for cutting-edge research in software reliability, bringing together experts from both industry and academia, and its 2026 edition will take place in Limassol, Cyprus from October 20–23. Limassol is a vibrant coastal city in the Eastern Mediterranean, known for its rich history, multicultural atmosphere, and strong presence in business, tourism, arts, and culture, with a population of around 250,000 in the greater area. As a major cultural and economic hub, it features notable attractions such as Limassol Castle, museums, theatres, and a modern marina and seafront promenade, while also hosting major festivals like the Carnival and Wine Festival. The city's diverse gastronomy blends Greek, Middle Eastern, and international influences, making it a top culinary destination, and conference organizers warmly invite attendees to experience both the event and the unique character of Limassol.

VENUE - The St. Raphael Resort – 5 *

St. Raphael Resort is located on one of the most renowned beaches in Limassol, only a short coastal drive from the lively centre of town, approximately 10 minutes away. The Larnaca International Airport is 35 minutes away, and Paphos International Airport is 55 minutes away. There are shops, restaurants and bars within walking distance and a bus stop exactly outside the hotel.

This carefully chosen, tranquil location with the calm sea at your doorstep and the town only a few moments away; has convenient access to the island's motorway. Any other coastal town, mountain village or tourist attraction is hardly more than an hour's drive away.
