

Roma 23/05/2020

To whom it may concern

### **Reference letter for Easy Conferences**

I had the pleasure of collaborating with Mr. Petros Stratis and his staff of Easy Conferences for organizing the joint conferences CONCUR, IFIP-TCS and TGC, together with their affiliated workshops, that took place in Rome, from September 1<sup>st</sup> to 6<sup>th</sup>, 2014. The event was extremely successful: all the participants highly appreciated the local organization and repeatedly thanked for all the arrangements. Following this experience, I collaborated with the company also for organizing the conference ICALP in July 2016, always in Rome. Also this event, that is the annual meeting of the European Association for Theoretical Computer Science, was a great success and all the hundreds of participants were very happy of the overall organization.

All the company is extremely professional, in the sense that they never put on me any charge that was not strictly necessary. For example, they produced and handled the website and the conference booklet almost without my inputs; I only needed to provide the very last scientific details that, of course, they could not produce without my control. The preliminary budget was very accurate and it turned out to almost coincide with the final one, thus totally fulfilling all the expectations we planned.

For all these reasons, I will appoint EasyConferences to organize a joint event that will take place at the end of June 2021, always in Rome. The event will include 4 conferences (LICS, ICTCS, CSIT and ITP), together with their affiliated workshops. The overall attendance will be around 400 people and I'm sure that also in this case Mr. Stratis and his collaborators will do an excellent job, that we already started in these days (website and preliminary budget).

Best regards
